EDUCATION

Stevens Institute of Technology, Hoboken, NJ
Master of Science in Computer Science

September 2022 – May 2024

Mumbai University, Mumbai, India
Bachelor of Engineering in Computer Science

August 2017 – May 2021

RELEVANT EXPERIENCE

Creative Finserv Pvt Ltd, Mumbai, India
Software Development Intern

March 2020 - November 2020

- Conducted testing and debugging processes to identify and resolve issues, for optimal performance across various browsers.
- Worked with developers as a team to integrate new features and functionalities into the CRM portal, ensuring a cohesive product.
- Gained hands-on experience with web development tools and frameworks, including but not limited to Bootstrap and jQuery.

SAHU Technologies, Mumbai, India
Front End Web Development Intern

June 2019 - July 2019

- Created an online presence for the company, which resulted in an upsurge of 40% in sales.
- Collaborated with the front-end development team to create and implement responsive web designs for various client projects.
- Assisted in the development and maintenance of user-friendly interfaces, for optimal user experiences across different devices.
- Corresponded closely with UX/UI designers to translate design mockups into functional web pages, ensuring consistency.

WORK EXPERIENCE

Stevens Institute of Technology, Hoboken, NJ
Teaching Assistant

September 2023 – December 2023

- Conducted review sessions, simplifying complex KDDM concepts to aid student exam preparation.
- Provided personalized one-on-one guidance, tailoring explanations to individual learning styles to enhance learning effectiveness.

PROJECT EXPERIENCE

Website that provides daily horoscope updates | Flask, CSS, React, BS4

January 2024- February 2024

- Utilized React hooks to fetch and display horoscope data based on user input, ensuring real-time updates.
- Implemented a fully responsive layout using native CSS, making the app accessible on various devices.
- Integrated with a remotely hosted backend using Axios for API calls to fetch horoscope data.

Live cricket updates website | Firebase, MongoDB, Elastic search, MERN

February 2023 - April 2023

- Built a Live cricket updates website that has a user-friendly interface by leveraging react.js as the front-end framework.
- Developed a dynamic authentication system with Firebase.
- Took ownership of live commentary, player stats, and real-time chat features using tools like Socket.io and Redis for caching

A web platform for Fitness enthusiasts | NodeJS, ExpressJS, Bootstrap

October 2022 - November 2022

- Led the development of a comprehensive platform featuring yoga articles, and connections among fitness enthusiasts.
- Designed the web application using HTML, CSS, and JavaScript for the front end, and MongoDB for the database.
- Increased user engagement by implementing progress update sharing with likes and comments.
